

# Quality Policy

We will ensure that our services meet our client's expectations, our own high standards and comply with all relevant regulations, including those defined by the National Highways Sector Scheme, the National Proficiency Tests Council and Environment Agency.

Specific quality objectives will be set and reviewed through our management review process. To help achieve these, we will maintain a quality system that meets BS EN ISO 9001 – “Quality Management Systems – Requirements”.

We must strive to continually improve our performance by regularly evaluating our services and identifying actions to ensure that our objectives are achieved and that problems are prevented.

Version 3

Approved by David Layland – Joint Managing Director

Date: 5th January 2017
